hund dones to your bother form and freed want some warm sundhing to bring them.

A terrange your study in a second while it soy but your star have it my

Those of prices study in a second was in the way if no it my

Make it soy but for we seem strends we

Make it soy but for we seem seem strends we Appende to have from you soon allow it will make a back you before it is maken, that you can exarsely get a living we did If you were to combe beech but I don't edding but he breaks very fact we have become forces from your have give up the Farm, at worker having in the lands of peace went bloomly. Then farming has not puice in their bosonty. Kather of Involver and surf send our, year I hope we shall get some this was so many of our beglish men rielect leading to so break born & 44), and allower so hear and our Dear Friends Freally thinks not have a very good favored last year over that has in Jululand is a sheadful thought for the back three or four years every thing remembered to you all, the X me Jaire you would searced house the old place William Martin is state buster for us nun she got nothing to write about so fixed Pater still lives there min bolman one of from Bye & gree Bleer your all now or not me nover hour known or making of herse If I Min sasa I have total you all the very field and wont very forward your hand some house burners without your hater cam down not a but like they weret to in yours good in the neserve but they wont eat well at all
